numbers + 2 RFDI Scanners

120,50€ (+VAT)

Keyfobs and RFID Scanners

The standard way of identifying our members is by linking a keyfob to their members profile in our software.

Keyfob is used as a form of member ID and is unique to each member. It will be needed in order to enter the club, for members to identify themselves in the software and get dispensed.

The club can opt as well for personalized cards (with your logo or any other design), they are used exactly the same as the keyfobs.

No data is stored on the keyfob.

Price for additional keyfob*:

BLUE: 0,29€ (+VAT)

Price for additional USB RFID reader:

17,55€ (+VAT)

OTHER COLOURS: 0,42€ (+VAT)

* Sold in multiples of 100.

Ecological RFID customized cards

As part of our dedication to protecting the environment, we have developed a high-quality plastic alternative made from 100% recycled materials. Our eco-friendly recycled cards provide the same reliability and functionality of traditional plastic cards without the long-term damaging effects of PVC.

100% biodegradable

Mini Cannador

This mini cannador connects to a screen which can display a single picture like for example a menu or a slideshow (pictures of products).

A great way to showcase your products!

53,00€ (+VAT)

Cannador to control your member visit log

Some of our clubs want to know how long members stay in the club, how often they visit, when they visit. This makes it easy to do this.

Comes with the software and a USB RFID scanner.

How it works:

The member scans the keyfob via the RFID Scanner that is normally located at the entrance/exit of your club. This reader is connected to our system, and each time a member enters/exits, the visit is logged in their profile.

If your club has a minimum visit duration of X minutes and the member stays less time than this, a warning will appear on the screen and it will be recorded in their profile.

Screen not included.

160,00€ (+VAT)

Screen not included

Reader for Tablets/iPads

Our software can be used on several devices and one of them is a tablet. In order to use our software on your tablet, you will need our solution.

How it works:

It is composed of a box and a reader. The reader is not plugged into the tablet but is an independent module located wherever you want and it communicates with the tablet via internet.

160,00€ (+VAT)

39,99€ (+VAT)

Automatic Payment Machine

Features

- With this machine, the workers / volunteers / collaborators in your club never need to handle money. This results in a 0€ difference in the club's till, every day. It is a safe box that accepts bills and coins, and returns change.

- With this machine you will need a POS. It is a touch screen computer where the member pays their fee or charges their account/keyfob.

- Please contact us for an exact quote for the machine, which we must request on your behalf.

- There is an additional fee for the setup, preparation, configuration and transport of the POS.

- The POS (computer + touch screen + USB reader) has a separate cost, calculated based on several factors.
